52 Caldercuilt Road
Glasgow
G20 0AL

Dear Alan

PERMISSION TO USE – Maryhill Park (approved plot only)

I have pleasure in confirming that permission for Friends of Maryhill Park to carry out Growing Space project on council land (attached) at above location has been granted. I note that this permission begun on 1 December 2019 and is valid until 30 November 2020 and will be reviewed annually thereafter. Please note that Neighbourhoods and Sustainability is currently reviewing permission to use arrangements and this permission may be subject to change.

Permission to use the site is granted subject to your compliance in full with the Conditions of Let (Copy of which is enclosed herewith) and any additional conditions or restrictions imposed by Neighbourhoods and Sustainability specific to this site.

I would ask that you sign (PRINT NAME IF ELECTRONIC) the Conditions of Let as confirmation of your agreement to observe same and return one copy to me using the above address (or by email rachel.smith@glasgow.gov.uk) no later than 16 December 2019. Please note that failure to do so will negate permission granted.

This letter should be available for inspection on site by Officers of Neighbourhoods and Sustainability, Glasgow City Council and Police Scotland.

You are required to ensure that access and egress are kept open at all times for Council vehicles and for those of the Emergency Services.

It is normal practice for us to charge a fee for permission to use sites and on this occasion the fee will be £0 plus VAT.

I trust you will find the foregoing in order, however, if you require further assistance please do not hesitate to contact Henry Adomako (Project Officer – Parks Development) on the above telephone number.

Yours sincerely

Rachel Smith
Landscape Design & Development Manager
